

# Transpigeon Story

The game begins with a short cutscene in which we meet the main two characters, Mia and Bassy. Mia takes in a toilet whilst Bassy jokes about it. Bassy leads Mia out of the toilet and back into a lively pub.

Sketch that. They will visit the Pub, in a side alley, getting the odd strange look from passers by, and there are a couple of player choices for conversation.

Once inside the Pub, Bassy leads Mia to join the snobs, and the player is now free to walk around and talk to people, and interact with objects. The player can also meet a handful of side characters.
